

Town of Bremen
Conservation Commission Video Conference Call
October 2, 2024, 5 pm

BCC Members Present: Ann Nesslage, chair, Susan Davis, Mary Berger,
Walter Radloff, Naomi Martin
Selectman Liaison: Wendy Pieh
Visitors Present: Brad Weigel

September minutes approved.

Mowing update: by Spring 2025

Coastal Rivers will have suggestions for **mowing fields** according to best ecological practices. Now follow historical mowing plans.

Paths that are mowed by the town on HOC and Hay should be about 8' wide to avoid ticks and be on the same schedule as mowing the grassy areas the town mows on HOC and Hay.

Mowing HOC paths by the stone wall may be hampered by overhanging branches. Coastal Rivers will determine what needs to be done and will execute as their resources allow

Town's plan for erosion control on Hay and Town Landing

Could we have an update? Are you planning for input from environmental groups rather than just a company doing the work. Timing for work?

HOC

No major work needed for this coming year. It was suggested BCC provide snacks on trail work days arranged by Coastal Rivers.

Turner Road. Curious about the obvious work going on . 80 acres?

Projects for next year include engaging Bremen residents in identifying and controlling invasive plants on their property. Discussion of ways to reach residents with information including signage of invasive plants at the town center.

Still have not received the report from KLSWCD. Susan will pursue.

Adjourned 6:05 pm

Respectfully submitted: Susan Davis
